EDUCATION

Lokmanya Tilak College of Engineering <i>Bachelor of Engineering, Electronics and Telecommunication</i>	Koparkhairane, Navi Mumbai Dec 2021 – May 2025
Laxman Devram Sonawane College <i>HSC Science (Score 87%)</i>	Kalyan, Mumbai Jul 2019 – Jun 2021
Sainath English High School <i>SSC (Score 73.80%)</i>	Vashi, Navi Mumbai Jun 2018 – Jul 2019

INTERNSHIPS

Developer and Technology Virtual Experience Programme Accenture UK, Forage	Jul 2024
- Developed end-to-end understanding of the Software Development Lifecycle - Conducted research on emerging technology trends, focusing on DevOps - Created and presented analysis comparing Waterfall and Agile methodologies	
Accenture North America Data Analytics and Visualization Job Simulation on Forage	Apr 2024
- Completed a simulation focused on advising a hypothetical social media client as a Data Analyst at Accenture - Cleaned, modelled and analyzed 7 datasets to uncover insights into content trends to inform strategic decisions - Prepared a PowerPoint deck and video presentation to communicate key insights for the client and internal stakeholders	
Goldman Sachs Software Engineering Virtual Experience Program on Forage	Apr 2024
- Completed a job simulation as a governance analyst, assessing IT security and suggesting improvements - Identified outdated password hashing algorithm by cracking passwords using Hashcat - Proposed uplifts for increased password protection, including extending minimum password length and using a dedicated hashing algorithm	
Cognizant Artificial Intelligence Job Simulation on Forage	Mar 2024
- Completed a job simulation focused on AI for Cognizant's Data Science team - Conducted exploratory data analysis using Python and Google Colab for one of Cognizant's technology-led clients, Gala Groceries - Prepared Python module for model training and performance metrics for Machine Learning engineering team - Communicated findings and analysis through PowerPoint presentation to present the results back to the business	

PROJECTS

Instant Video Language Translation <i>Python (Flask), Google APIs,</i>	June 2024 – Present
- Built an video language translation system to process, transcribe, and translate video content across languages - Leveraged Python, Speech-to-Text, Google Translate API, and gTTS to create subtitles and voiceovers - Improved accessibility by delivering real-time, multi-language video outputs for diverse audiences	
Real-time Translation <i>Python (Flask), JavaScript, WebRTC, Google APIs</i>	May 2024 – Present
- Built a real-time speech-to-text and translation system with support for multiple languages - Integrated WebSockets for full-duplex communication, ensuring seamless real-time translation and live updates - Implemented front-end and back-end using HTML5, JavaScript, and Python (Flask), leveraging Web Speech API for text-to-speech functionality.	
Smart Home Automation <i>ESP32, HC-05(Bluetooth), Arduino, Blynk IoT</i>	Mar 2023 – Apr 2023
- Developed a complete no code system to connect multiple devices and control remotely - Implemented online offline system to control without interruptions - Created a web dashboard to view/control from anywhere around the globe	

CERTIFICATIONS

Ambassador Challenge Vision AI900 <i>Microsoft Learning</i>	June 2024
• Learned fundamental AI concepts and machine learning basics • Gained proficiency in Azure AI services, including Computer Vision and Facial Recognition • Mastered fundamentals of Text Analysis, Optical Character Recognition, and conversational language understanding	
Ambassador Challenge A ride in the world of Azure <i>Microsoft Learning</i>	May 2024
• Learned fundamentals and advanced features of Azure AI services • Explored core architectural components and storage services in Azure • Gained skills in implementing Retrieval Augmented Generation(RAG) and prompt engineering with Azure OpenAI Service	
Microsoft Azure AZ900 <i>Koenig Solutions</i>	Feb 2024
• Learned Time Management while Working with team • Hands on training with Microsoft Azure • Utilized Microsoft Azure for cloud computing	
Hands On Ethical Hacking <i>TeleNetwork Technologies</i>	Jan 2024
• Learned the basics of Ethical Hacking and methods to be cybersafe • Hands on experience with Kali Linux and Tools • Performed a live attack on dummy	
Project Management Foundations : Teams <i>LinkedIn Learning</i>	Dec 2023
• Covered essential project management principles with a focus on effective teamwork • Developed skills in time management, collaboration, and project planning within multidisciplinary teams • Applied learning to real-world scenarios, enhancing proficiency in coordinating and executing projects successfully	
1-Day AI Tools Workshop <i>be10x</i>	Dec 2023
• Discovered hidden AI tools and optimized their utilization for maximum benefits • Acquired practical skills in implementing tailored AI solutions, enhancing organizational efficiency • Explored advanced techniques for leveraging AI resources to solve complex problems effectively	

TECHNICAL SKILLS

Languages: Python, Bash, SQL (MySQL), HTML/CSS, R

Developer Tools: Git, Github, Microsoft Azure, AWS, VS Code, Visual Studio, PyCharm, PowerBI

Libraries: Pandas, NumPy, Matplotlib, Flask

Boards: Arduino, ESP32, ESP8266, HC-05, MSP430

Systems: Linux, Windows 10, Windows 11, Ubuntu
